antelope

Antelope is available on: Alder, Cherry, Maple, Oak, Quartersawn Oak, Rustic Alder, and Walnut with Toasted Almond and Espresso highlights available on all species except Oak and Quartersawn Oak.

mohair

Reminiscent of a favorite sweater, Mohair semi-translucent stain softly emulates the color of driftwood in a pleasing finish for trend-forward cabinetry. Mohair is available on: Cherry, Alder, Oak, Quartersawn Oak, Rustic Alder and Walnut.

cabana

Cabana is the lightest introduction of our three new stains, featuring a bit more gray than brown. With timeless appeal, Cabana semi-translucent stain is sure to become a new neutral. Cabana is available on: Cherry, Alder, Oak, Quartersawn Oak, Rustic Alder and Walnut.

speckling

You've loved it on Bourbon Noir, and now we're pleased to bring Speckling to a variety of stained finishes! Speckling is an artistic finish – in black only – consisting of random spattering of small, contrasting color spots that may vary slightly in larger or smaller sizes. Expect these to be clustered or spread out across the surface of the product. This look of random imperfection creates an aged effect and a perception of depth that is in demand by cabinet purchasers today.

Available stains include: Amber Luminaire, Angora, Antelope, Arlington, Arlington Espresso, Bombay, Cabana, Cliff, Cobblestone, Coriander Coffee, Coriander Espresso, Coyote, Fennec, Fog, Gunny, Kindling, Mink, Mohair, Natural, Natural Coffee, Pheasant, Rousseau Luminaire, Sepia, Shadow, Shetland, Sienna Coffee, Suede, Sumatra, Tannery, Teaberry, Wheatfield, and Wheatfield Espresso.

paints on quartersawn oak

The unique grains of the Cherry, Alder and Rustic Alder wood species will now show through the luscious Angora finish, creating a beautiful effect and a new opportunity for your customers to get the look they desire.
